Jupiter in Livestock Industry

Jupiter was founded in 1988, Which supply high quality slaughter house hygienic equipments, especially slaughter processing machinery, food machinery and also supply poultry assistant projects, such as waste water treatment, slaughter house offal treatment system and cold room.. Our company has a strong information resources

Head Office in Tamilnadu-South India: Our Branches in Bahrain-Salmabad, Saudi-Dammam, Qatar-Doha, UAE-Dubai, Singapore-Jurong and China-Shanghai.

Our Mission

Jupiter wants to be the number one supplier of slaughtering technology. A position that shall be achieved through the establishment of a strong and complete range of products developed through an innovative use of process know-how and technological leadership with heavy demands on ergonomics, hygiene, yield and automation.

Our Vision

In proportion to its competitors, Jupiter will secure increment for customers by creating an attractive environment where technologically leading machines and systems to the food industry are sold, developed, designed and put into operation.

We do

Jupiter produces and provides the following:

- Free-flow or electric suspended rails with a double aluminum frame for moving meat in slaughterhouses, meat processing factories and meat lockers
- Electrical & Pneumatic Hoisting systems for raising and lowering carcasses
- Pneumatic & electric caging and anesthesia machines for Slaughter plant
- Pneumatic raised work platforms, Fixed work platforms
- Skinning machines for cattle & sheep
- Automatic offal moving and processors
- Automatic moving and processing systems for skin
- Systems for cleaning carcasses
- Systems for cleaning & sterilizing
- Slaughterhouse machinery & tools Blood gathering systems, Cremation ovens

Bleed-Rails

Our Services

Jupiter with its big experience and the "slaughter know how" can support its client everywhere in the world. Jupiter have the latest machinery, tools and the most advanced equipment for supporting its client anytime to any difficulty arises.

Supply New Equipments

Jupiter is the asian leading supplier of innovative and tailor-made solutions to the meat industry for red meat such as sheep, cattle and fish. Jupiter product range includes automatic systems, automated slaughterlines with integration of the Jupiter Autoline concept in dressing lines, cutting and deboning systems as well as weighing and packaging systems. All the Jupiter equipment is designed to meet the most demanding standards in the world.

We specialise in

Turn-key solutions covering slaughtering, cutting and deboning as well as re-processing. Special solutions for modifying, extending and renovating existing plants and systems.

Complete Slaughterlines

Jupiter designs and supplies complete solutions including solely high-quality machinery such as:

- Conveyor systems
- Dehiding systems for cattle and sheep
- Scalding systems, incl. vertical scalding
- Dehairing systems
- Flame-off singer and cleaning line
- Polishing and scraping equipment

Our highly trained experienced engineers incorporate customer requirements for automation, specific functions and special equipment into a complete solution. Therefore our solutions meet individual customer requirements and specifications and also the toughest demands of the industry.

Poultry slaughtering Equipments:

Chicken, duck & goose cage washer and conveyor, anchor chain type auto-conveying line, water bath type electric numb machine, cot opener for duck & goose, air-blowing type soaking & scalding device, spray type soaking and scalding device.

Chicken, duck and goose head feather shedder, "A" type rough finish feather shedder, vertical rough finish feather shedder, wax dipping device.

Wax cooling device, automatic paw cutter, auto unhooking device, spiral pre-cooler, carcass draining machine, subdividing conveying line, chicken paw dehuller defeather and deskin, gizzards cutter etc.

Poultry slaughter line can be used for the slaughtering of various kinds of poultry, such as chicken, duck, goose and pigeon for meat. The poultry slaughter line has assimilated advanced domestic and foreign technologies.

It adopts the technique of the manually assisted mechanical pipeline operation. Therefore the quality of the products after processing meets the requirements of laws related to foodstuffs & hygiene as well as the standard exported commodity inspection.

Chicken plucking machine

Multihead Weigher Poultry

Sheep & Goat Slaughtering Equipments:

"V" type numb auto-conveyor, Anchor chain type bloodletting (skin pulling & carcass processing) auto-conveying line , Closed orbit type bloodletting (skin pulling & carcass processing) auto-conveying line, Synchronous quarantine auto-conveying line for head and feet, Suspended type, synchronous quarantine auto-conveying line for red and white viscera, Floor model synchronous quarantine auto-conveying line for white viscera, Synchronous quarantine auto-conveyor for red viscera, Swinging arm type sheep peeling machine, Drum-type sheep peeling machine etc.

Sheep VRestrainer

Sheep Auto-Hock-Cutter

Sheep PeltOMatic

Sheep Dreesing-Conveyor

Cattle slaughtering Equipments

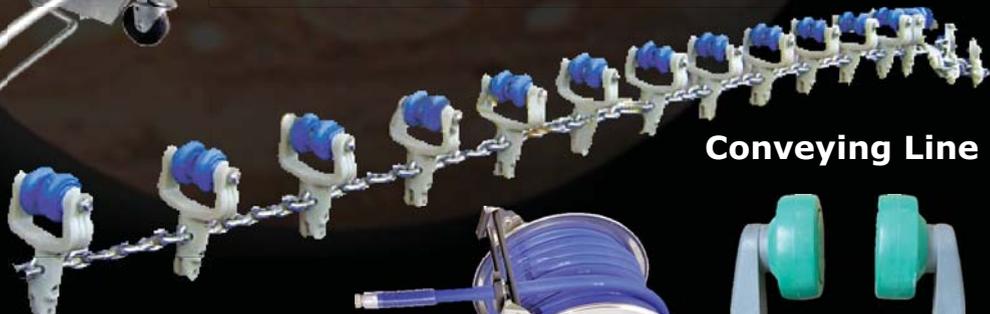

hoisting reverse case, Gradient bottom-board reverse case, Electric stimulus device, Pneumatic elevator with centralized drainage tank, Pneumatic elevator for taking out white viscera, Carcass processing auto-conveying line, Red viscera quarantine auto-conveying line, Disc type white viscera quarantine auto-conveying line, Belt white viscera quarantine auto-conveying line, Bloodletting auto-conveying line, Carcass processing auto-conveying line, Double speed tripe washer, Carcass descent machine, Modular (nylon belt type) splitting and processing auto-conveying line etc.

De-fatter Skinner

Freezer for Slaughter plant

Conveying Line

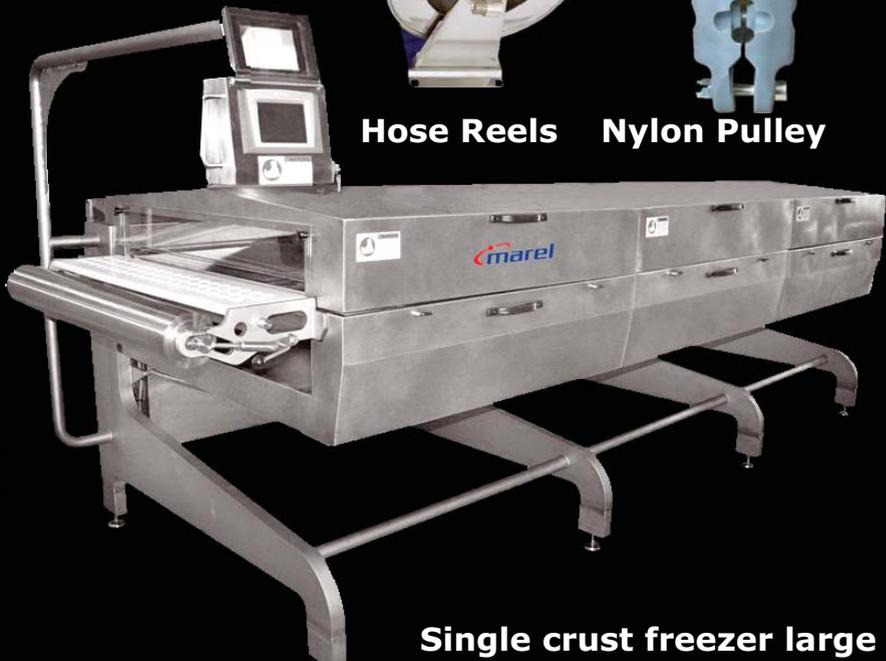

Hose Reels

Nylon Pulley

Electronic Stimulator

Single crust freezer large

Fish Processing Equipments

We are supplying Fish Processing Machinery for almost all species of edible fish. We supply via our international sales network.

Our product range comprises:

Fish Infeed & Mechanical Grading Machines
Fish Heading & Gutting Machines
Fish Filleting & Skinning Machines
Complete Processing Lines
Soft Separators
Various Fish Processing Machines
2nd Hand Machines

Fish Conveyor

Manual & Automatic Scaling Device

Shrimp and fish cleaner

Auxiliary Gutting Device Cleaning System

Shrimp food processing line

Machinery Repair and Rebuild

Jupiter repairs and rebuilds all types of machines (including on-site repairs). We have specialists in engineering, hydraulics, electrics, pneumatics, machining, and welding. We can handle all rigging, trucking, cleaning, and painting of machinery. We also retrofit and upgrade CNC Machines. Our shop facility is capable of handling all types of machine tools from small tool room machines to large metal working machine tools.

Our rebuild staff has over 20 years of experience rebuilding a wide variety of machine tools. We are fully proficient in the art of scraping ways and fitting precision machine tool slides. We are also capable of building and troubleshooting hydraulic and pneumatic systems. Our electrical control shop has the capability of handling projects from minor cleaning and repair to complete redesign and retrofitting of CNC control systems. We have implemented a schedule of continuous training for our staff in hydraulics, pneumatics, electronics, scraping, and precision bearing services in order to keep up with today's ever changing technology.

We service most slaughter lines equipment and offer the following services:

Technical advice

Installation services

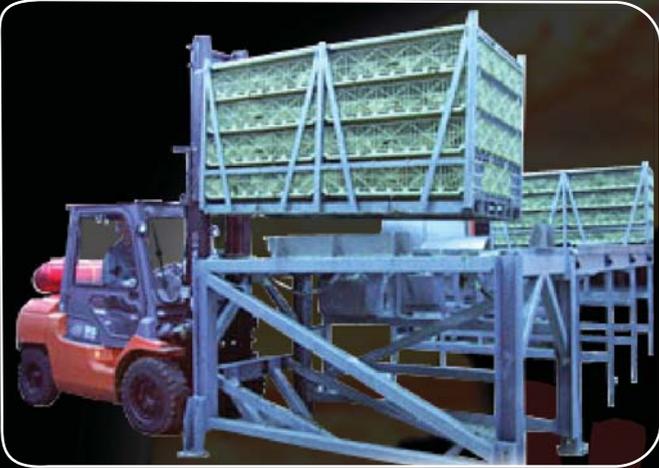

Food Processing maintenance and repairs

Quality consumables that are compatible with your specific equipment

Sheep Dressing Conveyor

Poultry Processing Equipments

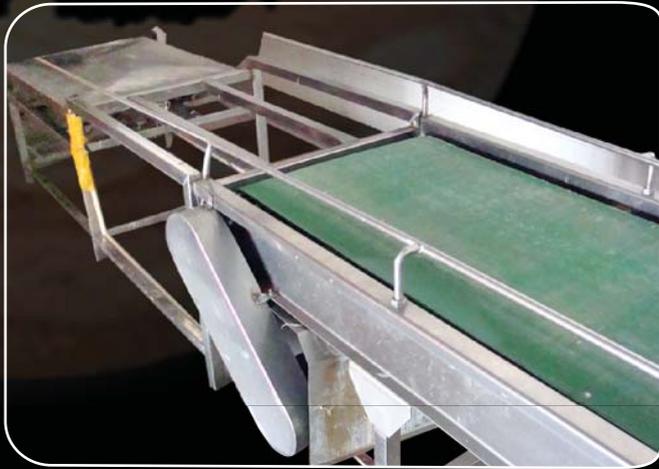

Live Bird Handling

Defeathering Machine

Grading and Distribution

Conveyor

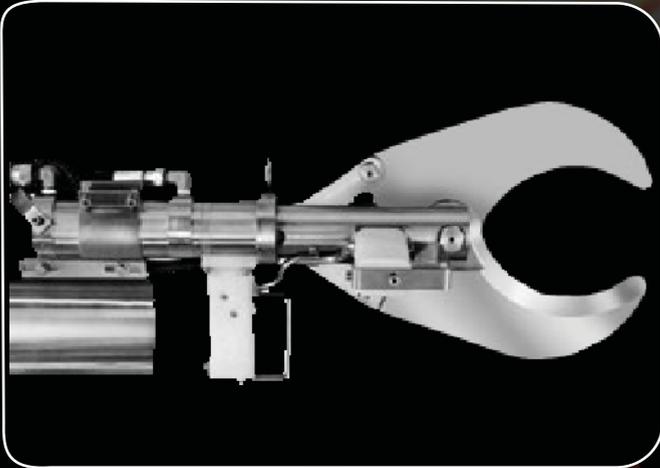

Poultry Plucker

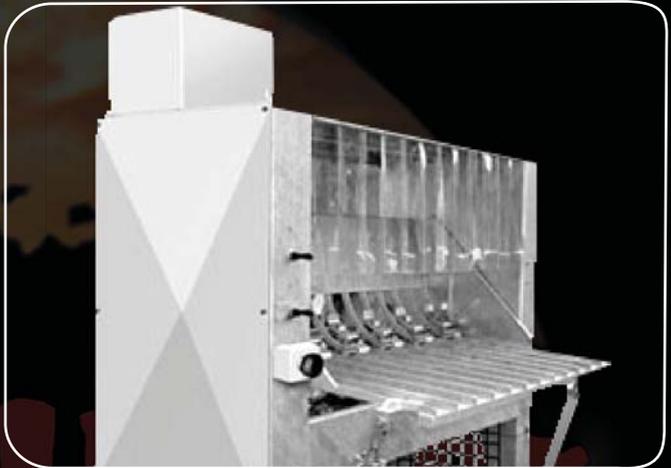

Slaughtering Pre-cooling Machine

Cattle Processing Machines

Hydraulic & Pneumatic Shears

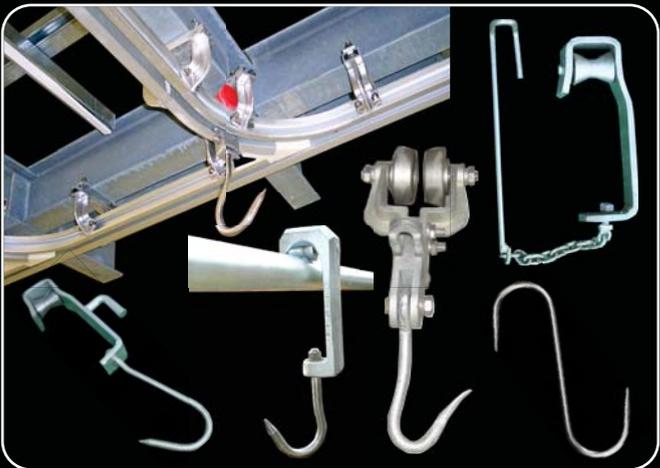

Cattle Dehairer

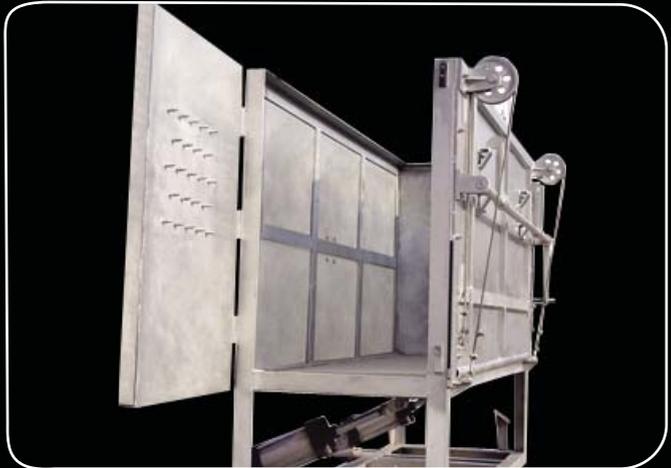

Centrifugal Cleaning Machine

Cattle Stepping Conveyor

Meat Hooks and Gambrels

Pneumatic Reverse Case
