## Jupiter in Printing Industry

Jupiter is the pioneer in printing industry since 1988, And we would like to introduce proudly with challenge in machinery manufacture, Import, Export & professional technical services in all kinds of used & new printing machines. Spare parts and accessories in around middle east gulf & arab countries. We have well experienced qualified engineers technicians with well equipped workshop and able to provide fast & reliable service facility with guaranteed work perfection.

Head Office in South India-Tamilnadu: Our Branches in Bahrain-Salmabad, Saudi-Dammam, Qatar-Doha, UAE-Dubai, Singapore-Jurong and China-Shanghai.

## Our Mission

Our mission is to offer cutting edge technology and services to a broad user base, helping them to maximize employee productivity, increase long-term corporate profitability and enhance their competitive position in the global marketplace.

## Our Vision

Our vision ensures the driving force so that our clients receive quality printing machines at competitive prices. Innovation is a key strategy of Jupiter, and an essential part of the company's long-term growth.

## Office & Workshop

## Machine Manufacturing Import & Export

We Manufacture , Import & Supply all kinds of Used & Printing Equipments, Spare Parts, Accessories & Consumables.

We import, exort, Sell, Buy, Rent, Long Lease, Hidelberg Printer, Carton Printer, Book Binder, Foam Sheeter, Rubber Stamp Maker, Paper Cutter, Heat Press Machine, Laminator

## Selling used & new printing Machinery & Equipments

We source, import export, selling industrial & commercial all brand & types from all type of printers. We are complete sales, service and technical support center for all of your printers and spare parts needs.

Also we source and supply printers to meet your project on technical specifications and budget.

## Buying used & new printing Machinery & Equipments

Jupiter is one of the gulf no:1 bulk & retail leading printing equipment buyer and we are buying all kinds of used, new, damaged, faulty, scraped rejected, old model printers and components.

## Exchange used & new printing Machinery & Equipments

We provide you a good facility for exchange your old printing machines and other heavy Machineries into new printing machinery with suitable rates. we will give warranty & guarantee on exchanged items including parts back.

## Rental & Long leasing used & new printing Machineries

If you feel that purchasing a new printer is a costly endeavor, why not opt for a printer lease from the Jupiter. In addition to huge cash savings, a printer lease can help you continuously upgrade your printer to keep in touch with the latest trends in printer technology. Included in Jupiter printer lease program are big brand names like Xerox, Konica Minolta, Canon, IBM, Ricoh, and Kodak Digimaster. Whether you require a black and white printer, a color printer or a laser printer, the Graphic Savings Group is simply the best.

As a leading cash flow management consulting firm with years of experience in the leasing industry, Jupiter guarantees you a customized, cost-effective and flexible printer lease. You also won't have to worry about the costs for delivery, installation, repair and maintenance. These costs are already included in your printer lease.

## Our Range of Products

### Printing machine

- Commercial bills printer
- Digital jet printer
- Flexo printing press
- Gravure printing press
- Offset printing press
- Screen printing machine
- UV Curing machine
- Vacuum plate burning machine

### Binding series

- Angle Cutting Machine
- Book Covering Machine
- Book Pressing Machine
- Book stitcher
- Drilling Machine
- Coil Binding Machine
- Electric Binding Machine
- Eyeletting machine
- Forming & Folding machine
- Hardcover Unit
- Glue Binding Machine
- Punching Machine
- Riveting Machine
- Sewing Binding Machine
- Wire Binding Machine

### Laminating UV coating machine

- Dusting machine
- flute laminator
- Hydraulic film laminator
- laminating machine
- Paper glazing machine
- paper powder remover
- separating machine
- UV coating machine
- UV Photofixation machine
- Vertical high-precision & multitude laminator
- water soluble filming machine

### Paper cup machine

- Cake tray forming
- Paper cup overcoating
- paper bowl forming
- paper bucket machine
- Paper cup/plate forming machine
- Paper cup handle adhesive

### Paper cutting machine

- A4 size sheeting & wrapping
- Cardboard splitting machine
- Press machine /flattening
- Computer sealing and cutting machine
- Creasing and die-cutting machine
- Paper cutting machine

### Pasting box machine

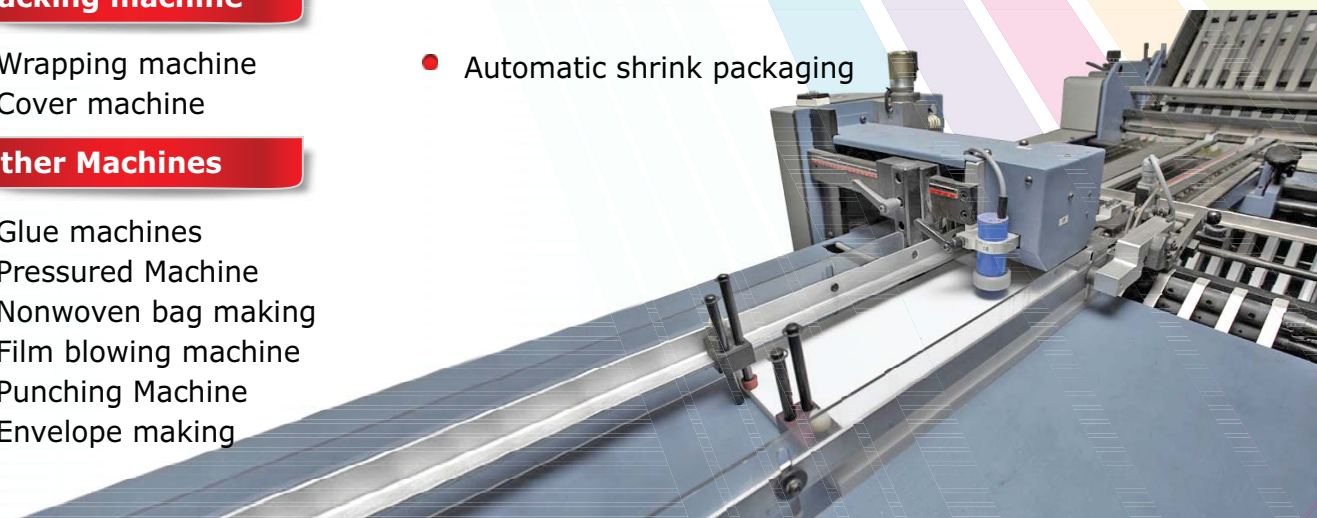

- Cardboard slotting machine
- Handbag bottom- gluing
- Paper Lunch
- Box Forming Machine paper paste machine

### Packing machine

- Wrapping machine
- Cover machine
- Automatic shrink packaging

### Other Machines

- Glue machines
- Pressured Machine
- Nonwoven bag making
- Film blowing machine
- Punching Machine
- Envelope making

## Printing Machines

### Web Offset

We Manufacture And Exports Fast And Gemini Range Of Web Offset Printing Machines Which Are Used For Printing Of Newspapers Etc.

Smart Modular Design of Sheetfed Offset Printing Machine, Sheetfed Offset Press provides various options for newspaper printing, book printing, magazine printing & similar paper printing in various combination of coloured and B&W pages to suit needs of the customer.

### Mini Offset

The Mini Offset is a Great Solution for Offset Printers who are expanding for printing of small size papers and is Best Value for Money for offset printers entering into offset printing work with low budget. This Mini Offset is compact, easy to run highly productive which can be used in Screen Printing Houses, Letter Press Houses, D.T.P. units. Small Enterprises. Jupiter Printing Machines are widely appreciated and recognized for their high quality, reliability, efficiency and economy in India and Worldwide.

### Sheetfed Offset

Our clients can avail from us a wide range of high quality Sheet Fed Offset Printing Machine which is offered in different specifications. Further, these are fabricated using quality components and as per the defined industry standards. Owing to features like excellent printing, high efficiency and durable in nature, these are widely appreciated by our clients.

### Poly Offset

Poly Offset Machine is unique combination of Mini Offset & UV System (specially made for drying of UV based surfaces) which can be used for printing various types of Polythene Bags (Punched & Un-punched), Non-Woven Material and Paper to suit varying needs of the customer.

## Printing Machines

### Variable Data Printing Machine

Equipment is capable to handle versatile jobs and enables the mass customization of documents via Digital Print Technology, thus allows for unique printing for each of the document.

Thermal Inkjet (TIJ) technology ensures for optimum use of inks for printing all type of jobs viz text, graphics and images and thus delivers better cost efficiencies.

### PTP Computer Stationery Printer

Pack to Pack Computer Stationery Machine is ideal for short run jobs. Pack to Pack Computer Stationery Machine is a Great Solution for Offset Printers who are expanding for printing of small size papers and is Best Value for Money for offset printers entering into offset printing work of computer stationery with low budget . This Computer Stationery Printing Machine is compact, easy to run & highly productive.

### Label Printing Machine

Label Printing Machine is ideal for short run & long run jobs. Label Printing Machine is a Great Solution for Offset Printers and is Best Value for Money for offset printers entering into offset printing work of Label Printing Machine with low budget . This Label Printing Machine is compact, easy to run & highly productive.

### T Shirt Screen Printer

Automatic computerised UV screen printer is the innovative high-tech automatic UVprinting equipments. Aimed for highte production output and faster recovery of investments, it"s equipped with intellegent microprocessor, non-stop multicolor UV printing,instant UV ink dryerout,minimal maintenance required, but top UV print result,leadint to the superior printer in any print workshops. The printers not only applys to do high color-to-color registration printing on garments and leathers such an nylon, tetoron, microfiber twill, satin,PVCand PU,but also fitting on printing

## Printing Machines

### Anodised Labels

When printing on aluminum sheets for machine labels an anodizing process must be followed in order to get the printing ink to stick permanently and become scratchproof, weather resistant and solvent resistant. Ideal for printing advertising signs, front panels, serial number panels, decorative signs, flow diagrams, site plans, information signs and promotional aids for indoor or outdoor use.

### Bottle & Cylindrical Printing

When screen printing a round object such as juice & squeeze bottles, drinking glasses, coffee mugs, pen shafts and conical shapes such as drinking glasses, rain gauges and ashtrays a cylindrical printer is required. The correct size gear, mandrel and screen must be used to reproduce the design correctly.

### Ceramic Printing Equipment

There are two types of ceramic screen printing: under-glaze or on-glaze. Both require printing mediums mixed with glaze and a high temperature firing (pottery) kiln. Under-glaze printing medium is used when printing directly onto the raw bisque and requires a high firing temperature. Once the initial firing process is completed the ceramic tile can then be printed with a design using on-glaze colours.

### Lithography

Litho machines come in a wide range of printers ranging from single colour to multiple colour printers that use either conventional air-dry inks or UV cured inks. A photographic plate is exposed with an artwork using a photographic positive/negative. After the plate is washed out the design remains behind as a raised area to which the printing ink will attach itself as the printing drum rolls over the ink rollers. This image is in turn rolled onto the paper or substrate to be printed. Traditionally magazines, calendars, business cards, invoice books etc. are printed in this way.

## Finishing Machines

### Numbering & Barcode Printing

Numbering & Barcode Printing Machine is 'Unique & Smart' Design to deliver Latent needs of Global Consumers for flexible number & barcode printing at very competitive running cost.

This offline Number Printing Machine is ideal for short / long run jobs. This Numbering Machine is a Great Solution for Printers who are looking for efficiency & Best Value for Money.

### Automatic Thermal Lamination

Automatic Thermal Lamination is a Breakthru Innovative Design to deliver Latent needs of Global Consumers for mass production efficiently at very competitive running cost.

This can laminate paper, board, art card & similar products @ fast speed with high quality and delivers cut-to-size sheets without any hassles of post operation.

### Envelope Making

Envelope Making Machine is a Breakthru' Innovative Design to deliver Latent needs of Global Consumers for mass production efficiently at very competitive running cost. Huge range of Envelope Making Machines consists of Multi Functional Envelope Making, Pocket Envelope Making, Wallet Type Envelope Making, Wedding Cards Envelope Making, Tip Gluing, Window Pasting, Medicine Bag Making, Eye-Glass Bag Making & CD Cover Making etc.

### Paper Folding Machine

Paper Folding Machine is a Breakthru' Innovative Design to deliver Latent needs of Global Consumers for mass production efficiently at very competitive running cost. Huge range of Paper Folding Machine consists of Multiple Applications like Single Fold, Fan Fold, Letter Fold, Project Fold, Double Parallel Fold, Fold with Creasing, Report Form Fold, Organ Fold, Close Door Fold & Cross Fold etc.

## Finishing Machines

### Sheet Counting

Jupiter W.L.L manufacture the widest range of equipment for counting, batch marking and tabbing from one single source. It makes precision paper counters that use pin-and-blade or rotary disc techniques for counting paper and printed graphic arts materials. Vacuumatic Limited specialise in the supply of counting machines for use in managing secure printed documents, from bank notes and cheques, to pharmaceutical inserts and duty labels.

### Magnetic Ticket Processing Line

Easily one step ahead of your competitor when producing electronically readable data carriers, such as....

Tickets, boarding passes, wallets, parking tickets and ISO-cards.

It is designed as an Off-line version to work with pre-printed paper rolls independently of your printing press.

### Book Finishing Systems

The Series comprises system configurations for continuous web as well as cut sheet documents with processing of random, variable document composition and page count plus cover and annexes. Book integrity check is a key feature in all systems. Check books of any kind for any market, payment coupon books, travel voucher books, meal books, airlines ticket books are only a few of the many applications.

### Automatic Punching Machine

Punching Machines are for punching labels, telephone and credit cards, booklets, in mould food labels, garment tags & much more. Their specialities are punching in a two-up format to save on material and punching with counterpressure-when extreme accuracy is required or when using special material. The scope of shaping is wide, from almost rectangular shapes to complicated fancy forms corner cut or rounding, is of-course, not included / corrected.

## Our Services

### Cylinder and Roll Repair

We have a roll exchange program in place to reduce the customer's spares inventory or will repair cylinders and rolls as directed.

### Engineering • Custom Fabrication

We engineer and custom build to improve equipment performance electrically or mechanically--in many cases both. Consider updating your equipment for improvements.

### System Modifications

Brush dampening, solid state drives, in-line finishing, etc. modifications are available. Contact us, we will talk.

### Overhaul

On your floor or in our plant in Fort Worth, we will restore your equipment to print quality at a profitable cost to you.

### Perfect Parts

Our inventory of parts is considerable at our Blue Mound plant, from remanufactured rolls to gears, shafts, electrical units, motors, belts, chains, etc. We also buy and sell web printing units and related accessories.

### Turnkey Operation

Jupiter single source responsibility can be advantageous to the customer dealing with subcontracting rigors. Up time will be accelerated.

### Transportation and Rigging

Total handling from disassemble to reinstallation in a new location is available at competitive rates. also offers turnkey transportation services for moving goods across town or across the country. We specialize in oversized dimensions and payloads. Customized hydraulic trailers ensure safe & trouble-free offloads, reloads & handling of your equipment.

## Research & Development

The brain behind the formation of the framed Jupiter, Mr. Jehan is a qualified engineer with great credentials and vast experience in sheet fed presses. The man trained in the art of press manufacturers, had installed close to one hundred units of multi-colour offset printing machines in many countries of the world before venturing into manufacturing of sheet fed offset printing machines.

The wealth of experience gathered by Mr. Jehan has led to great improvement on the total elimination of some of the problem areas experienced by end users.

At Jupiter Engineers, quality performance of machines is foremost in the mind of our team of engineers and other personnel. We have laudable research and development department and continuously carry out improvement on our products. This is coupled with high quality control setup in our system of production.

## Skilled manpower

The most important resource of Jupiter is a high-skilled, innovative and flexible manpower. Our goal is to be an attractive employer and cooperation partner with activities based on high customer satisfaction and high efficiency.

- We improve our skills and efficiency by developing our personnel objective-oriented.
- Our pay policy is based on fairness, inventiveness and contribution to the company's competitiveness.
- We operate flexibly and efficiently for the benefit of our customers and with genuine cooperation create stable working conditions in the plant.

## Repairs & Maintenance

JEMS certified technicians are on-call and able to respond 24 hours a day, Seven days a week. JEMS offers the following service repair options:

- Breakdowns Emergency Repairs
- Planned Repairs & Maintenance
- General Overhaul Package
- Periodical Preventive AMC Maintenance
- Wireless Monitoring & Automation
- Erection, Commissioning & Upgrades

This dedicated support includes the repair of all types of printing house equipment. Handled by skilled technicians who have years of experience working in this field. Giving them the expertise to tackle even the most difficult and major repairs that might be required, with the confidence that comes from a fundamental understanding of the equipment and their function.

Regular maintenance is provided through Jupiter Engineering's maintenance agreements. These support plans are individually developed to cater for the requirements and needs of each printing house.

Every maintenance agreement logs each detail of the clients equipment, including the specifications, age, and service history. Recording this information becomes a vital resource for the technicians whenever they are called upon, giving them the knowledge to accurately assess a problem and suggest a course of action.

## After Sales Services

We provide excellent after sales services to ensure maximum satisfaction for our clients. Our after sales department include high skilled technicians, who are friendly and cooperative in nature and are always ready to assist our clients, anytime they need. The technicians are further backed by the latest technological and telecommunication support, to give customers superior service and support.

## Spare Parts & Accessoriess

Our parts centers are supply replacement parts for all makes & models of Forklifts even older Lifts that are no longer manufactured.

We are also able to offer a backup unit from our hire fleet in instances where the customer's Forklift is removed from service for major service work clients.

- Fast, Knowledgeable Service
- OEM Spare Parts
- Obsolete Equipment Parts
- General Overhaul (GO) Packages
- Replacement Parts

Jupiter printing machine spare parts, offset printing machine spare parts, web offset printing machine spare parts, newspaper printing machine spare parts, spare parts for newspaper presses, spare parts for weboffset presses and printing machine consumables parts to support new standards of modern machinery. With reference to Q.P.S (Quick Parts Service) division we supplement excellent technical services. We have archived new benchmark in complete support systems, with parts from BCH & GEMCO and with the option of various design and development of new panels.

## Installations

Our highly qualified service technicians make sure that the mechanical and electrical installation of your new or used sheet-fed offset printing machine is carried out flawlessly. Installation and start-up are executed according to the your printer regulations. This ensures a smooth and impeccable installation and lets our customers start production as soon as possible.

Service and repairs are normally carried out on a next day basis wherever possible especially when machinery is under warranty or on contract.

Our Services:

- Efficient and experienced service technicians, trained according to the high standards of printer industry
- Installation and start-up of sheet-fed offset printing machines

Removals: Machines can be stripped uplifted and packed on site ready for shipping.

### Your Advantages:

- Our service technicians' expertise guarantees a smooth and reliable dismantlement, installation and start-up of your new or used printing machine and of corresponding network
- The constant improvement of the installation and start-up process and our extensive experience reduce the time needed to put the machines in working order

## Erection & Commission

Installation of Printing machinery experience and attention to detail to prevent potentially dangerous safety issues. JEMS offers unparalleled experience and expertise in start-up Installation of the following:

- Electrification Systems
- Modernizations
- Relocations

## Used Printing Equipment

Jupiter has the used printing equipment, including used label printing equipments, that is the solution to your company's needs. With nearly two decades of experience in the used printing equipment industry, our staff will assist your company is assessing the used label printing equipments that provide the ideal solution to your company's application needs.

## Periodical maintenance

JEMS offers customized maintenance programs for your operation. From compliance and repairs to preventative & periodical maintenance, JEMS has the right maintenance program for your application, including:

- Compliance Programs
- Preventative Maintenance Programs
- Reliability Based Maintenance Programs

## Inspections

Our professionals can review a machines history and maintenance records, perform a thorough inspection of current condition, and provide the documentation for compliance with annual inspection requirements. In addition, if any deficiencies are identified our technicians are prepared to recommend the best repair solution.

## Printing Machines & Equipments

### Hidelberg Printer

Automatic Transfer Control  
for all Models

### Carton Printer

Print high quality RSC cartons, Blanks, Die Cuts  
and bags. Operation Managers, Operators and  
Maintenance Manager all love these machines.

### Book Binder

A3 size perfect binding machine, binder, Good  
quality with suitable price, CE certificate, Many  
patents, Easy to operate.

### Foam Sheeter

JEMS is the pioneer in electrical power industry  
since 1988, and JEMS would like to introduce  
proudly

### Rubber Stamp Maker

JEMS is the pioneer in electrical power industry  
since 1988, and JEMS would like to introduce  
proudly

### Paper Cutter

JEMS is the pioneer in electrical power industry  
since 1988, and JEMS would like to introduce  
proudly

### Heat Press Machine

Mug, Plate T-shirt, Cap Heat  
press Printer

### Laminator

Water Based Film Laminator
